1.2.2 Additional Provisions for Bachelor's Degrees

<http://rules.handbooks.uwa.edu.au/rules/GeneralRules/Part2/Division2>

Completion of Degree Requirements

1.2.2.14 On completion of a combined course, students will have completed the course requirements for both degrees towards which it leads.

1.2.2.15 Students may be qualified for the award of one of the degrees before completing the combined course if they have completed units to a total value of at least that required for the single degree course as specified in the relevant faculty's rules, including—

(a) all of the units specified for the relevant degree component in the rules for the combined course; and

(b) other units completed in or credited towards the combined course which the relevant faculty determines will satisfy the remaining requirements of the single degree course when they are credited towards that course in accordance with the University's and the relevant faculty's policy on credit.

1.2.2.16 Students who consider that they may be qualified for the award of a degree under Rule [1.2.2.15](#) and who wish to take out that degree must write to the dean of the faculty concerned, with a copy to the dean of the faculty which administers the other component degree, seeking written approval to take out the degree concerned.

1.2.2.17 Students who graduate with a degree under Rule [1.2.2.16](#) are not permitted to re-enrol in the combined course.

Entry to Honours

1.2.2.18(1) The faculty concerned may permit a student who has completed the requirements for the award of a degree to enrol in the course for that degree with honours.

(2) A student who is permitted to enrol for a degree with honours before completing the requirements for the combined course will be permitted subsequently to re-enrol in and complete the combined course subject to the time limit in Rule [1.2.1.33\(1\)](#).¹

¹ Rule [1.2.1.9\(3\)](#) governs concurrent enrolment in honours and a combined course.

1.2.1.9(3) A student in a combined course who has completed the requirements for the award of a degree and is permitted to enrol for that degree with honours in accordance with Rule [1.2.2.18\(1\)](#), may be permitted by the relevant faculties, or faculty in the case of a combined course administered by only one faculty, to enrol concurrently in the course for the degree with honours and in units which form part of the remaining requirements for the combined course.
